# Sundae Rewards

A TOKEN DISTRIBUTION SERVICE FOR PROJECTS  
BUILDING ON CARDANO.

# Revolutionizing token distribution

*Discover the future of rewards distribution with Sundae Rewards, a revolutionary service offered by Sundae Labs. Our platform redefines the process of token distribution, enabling atomic and instant claiming of tokens supported by our cloud-native wallet and UTXO management suite, Sundae Fleets. With Sundae Rewards, enjoy seamless, secure, and cost-effective rewards distribution, maximizing your experience in the Cardano ecosystem.*

**Atomic Claiming:** This feature allows users to cover the transaction fee and receive their tokens in a single transaction, streamlining the claiming process.

**Low Fee Structure:** Sundae Rewards leverages the principle of atomic claiming, enabling us to collect fees less than 1 ADA. Enjoy more value for less cost in your token distribution journey.

**High Throughput:** We ensure a smooth claim process, providing broker access across thousands of UTXOs. Our high-throughput system is designed to handle extensive transactions seamlessly, offering you an uninterrupted experience.

**Hardened Security:** Our hardened security is trusted by industry-leading platforms like Indigo and Liqwid, and we use the same for our ISO rewards distribution.

Trust in the fortitude of our system as we safeguard your reward transactions.

**Sundae Fleets Integration:** Sundae Fleets enables the orchestration of numerous processes or users in selecting UTXOs for a transaction, enhancing the efficiency and agility of your rewards claiming process.

**Customized Dashboard:** Our platform provides a customizable dashboard for each customer, enabling you to manage your rewards instance according to your needs.
